ALTERNATIVE HEALING
The impact that trauma has on the body’s physiology is far-reaching and CARE is committed to providing alternative programming for survivors to support them in various stages of healing. CARE offers programs specifically tailored to survivors, including: trauma-informed yoga, art, drumming & music, journaling, and dance. For more information on these programs, please contact admin@careprogram.ucla.edu.

EDUCATION, OUTREACH, and PREVENTION
CARE workshops and trainings are offered to students, staff, and faculty to educate the community about sexual violence prevention and response.

CARE (CAMPUS ASSAULT RESOURCES & EDUCATION) is a safe place for students who are victims or survivors of sexual assault, dating and domestic violence, stalking, and sexual harassment to get support, consultation, and counseling services.

ADVOCACY

CARE Advocates are available to support and advocate for UCLA student victims or survivors. They can assist students in finding resources and navigating reporting options. CARE Advocates can also assist students in receiving campus accommodations. You can get help from CARE Advocates without formally reporting an assault regardless of when or where the assault occurred.

A CONFIDENTIAL CARE Advocate can provide information on:

• Your rights as a survivor
• Reporting options
• Assistance when navigating the university conduct system and/or the criminal justice system
• Obtaining emergency protective orders, restraining orders or university no contact orders
• Counseling or medical referrals through UCLA or outside community agencies
• Academic accommodations
• Change in living arrangements
• Change in transportation arrangements
• Change in working situation

WHAT IS SEXUAL VIOLENCE?

Sexual violence includes conduct of a sexual nature engaged in without the consent of the other person, or when the other person is unable to consent. Sexual violence includes any of the following: sexual assault, domestic violence, dating violence, and stalking.

WHAT IS SEXUAL HARASSMENT?

Sexual harassment includes unwelcome sexual advances, requests for sexual favors, or other unwelcome verbal, nonverbal, or physical conduct of a sexual nature that interferes with a person’s employment or education, and creates an environment which a reasonable person would find to be intimidating, hostile, or offensive.

WHAT IS RELATIONSHIP VIOLENCE?

Relationship violence includes dating and domestic violence.

WHAT IS STALKING?

Stalking is repeated conduct directed at a specific person of a sexual or romantic nature or motivation, that would cause a reasonable person to fear for their safety, or the safety of others, or to suffer substantial emotional distress.

CONSENT IS AFFIRMATIVE. Consent is an informed and conscious decision by each person, to engage in mutually agreed-upon sexual activity.

CONSENT IS VOLUNTARY. Consent means a willing and positive cooperation in an act, or expressing a desire to engage in an act. A person can only give their true consent if there is no force, threats, or intimidation. Silence does not mean consent.

CONSENT IS REVOCABLE. Consent to sexual activity, on one occasion, does not mean consent has been given to any form of sexual activity, on any occasion. A past dating experience or sexual relationship, by itself, is not enough to assume consent. Even in the context of a relationship, there always has to be mutual consent to engage in any sexual activity at any time. Consent is ongoing; meaning at any point during a sexual encounter consent has to be given, and can be withdrawn. Once consent is withdrawn, the sexual activity must stop immediately.

CONSENT CANNOT BE GIVEN WHEN A PERSON IS INCAPACITATED. Incapacitation is the physical, and/or mental inability to make informed, rational judgments. States of incapacitation may include, but are not limited to, unconsciousness, sleep, and blackouts. Incapacitation may be caused by alcohol, drugs, or other medications.

A person cannot consent if they are unable to understand the act because of a physical or mental impairment.

WHAT IS CONSENT?

Consent is the decision by each person, to engage in mutually agreed-upon sexual activity. Consent is ongoing; meaning at any point during a sexual activity, there always has to be mutual consent. Consent is affirmative. Consent is revocable. Consent cannot be given when a person is incapacitated.

CONSENT IS NOT CONSENT IF THE OTHER PERSON IS INCAPACITATED. Incapacitation is the physical, and/or mental inability to make informed, rational judgments. States of incapacitation may include, but are not limited to, unconsciousness, sleep, and blackouts. Incapacitation may be caused by alcohol, drugs, or other medications.
